Held Properties Holds Artist Invitational for Century City Building

CENTURY CITY - **Held Properties Inc.** is sponsoring an artists' invitational featuring five California sculptors competing to create a piece of art for the company's office building at 1880 Century Park East. The invitational is in celebration of the anticipated completion of Held's \$8 million office building renovation. The artists are charged with the task of creating a sculptural piece of water art for the building's entrance. Judges selected the five artists from resumes submitted and each will receive \$5,000 to create a working model of their submission. The artist with the winning model will receive \$250,000 and will have six months to create the piece.
